'Originality' reflects distinctive character

5 MINS TO SIAM PARAGON

PRIME LOCATION

'Originality' reflects distinctive character

Upon this belief is where Wish Signature II Midtown Siam project was built. At SIAMNUWAT, we believe a home is not just a place to inhabit, but where one creates daily individual experience that build up 'unique' lifestyles of each person. Your home should be your signature.

Therefore, SIAMNUWAT has decided to build an Ultra Modern condominium, rooted from our deep understanding on the rare extent of the golden Midtown Siam, the location fully capable of answering every different need in one place. Wish Signature II Midtown Siam will make every second worth living while also echoing each person's originality.

PROJECT DETAIL

PROJECT HIGHLIGHT

Reside in new style, high above & beyond the horizon. The passion for social life and the need to create distinctive identity right where we are, these are the core ideas behind this unique all-in-one 4-floor facility space called 'Lifestyle Pods', situated on the rooftop, rendering the total experience of signature living above the sky.

LANDSCAPE GROUND FLOOR

Due to the part of the site that connects Phetchaburi road, which is the main road, to the building being the shape of a narrow and long strip of land. Therefore, the thinking process behind the design of this area is to create a zigzag walkway in order to try to make the space more interesting by giving the users a feeling like walking along a landscape of nature. This way, the people walking along this path will feel that it is not too long of a walking distance.

MAIN ENTRANCE

CONNECTING PLACES

The site is located very close to downtown Bangkok's Siam shopping district. It conveniently provides two routes that the occupants of the property can use to travel to destination in the surrounding areas.

The Arrival

The lobby is both visually and physically connected to its surrounding. Through double columns glass facade and multiple double doors, the spacious lounge area can be perceived by visitors while its occupants can look or walk out from within to appreciate designed landscapes that act as a separator between the development area and its surrounding context, adding much needed sense of nature in city center.

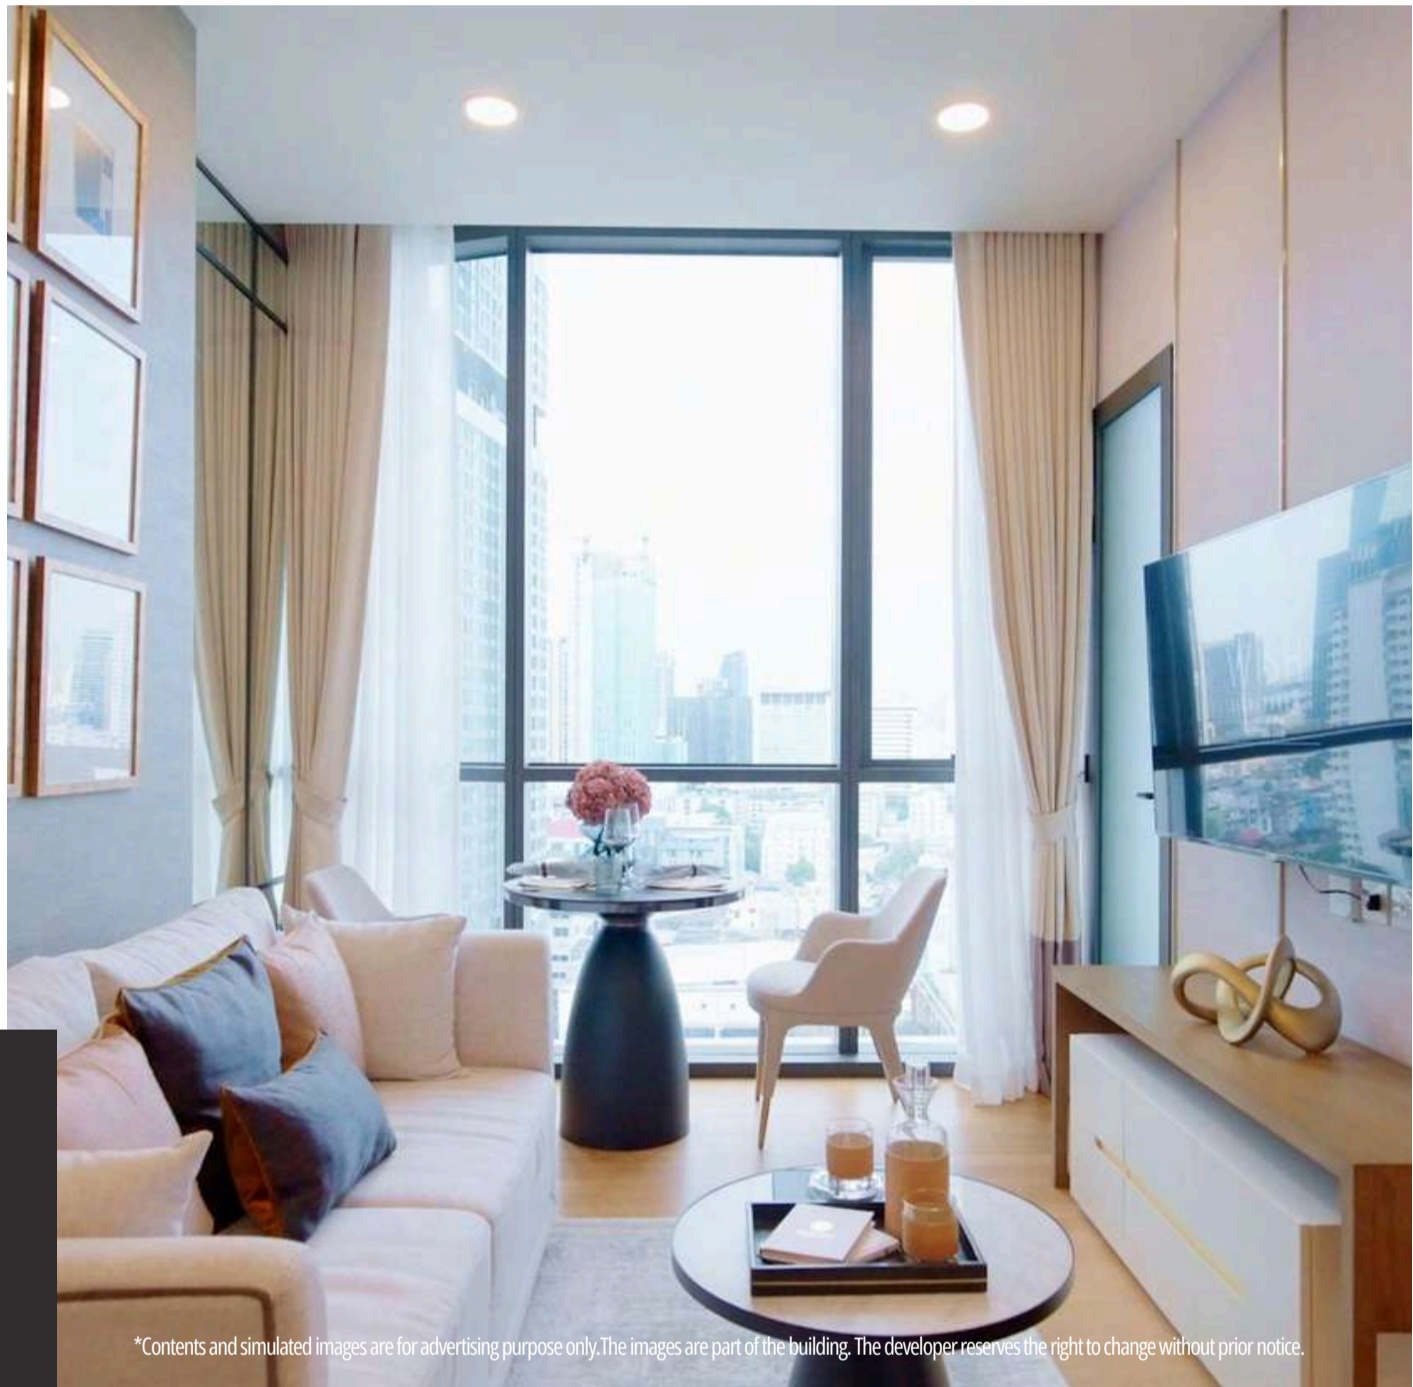

ROOF GARDEN Above podium parking, overlooking the city views, an outdoor garden area situated on the 9th floor provides the occupants not only a getaway space for outdoor meeting and relaxing space, it also contributes to its neighborhood with additional greenery.

*Contents and simulated images are for advertising purpose only. The images are part of the building. The developer reserves the right to change without prior notice.

9TH FLOOR ROOF GARDEN

Concept design of the space is the arrangement of seating and tree placement that are placed strategically in order to allow for maximum view to the city while not blocking one another.

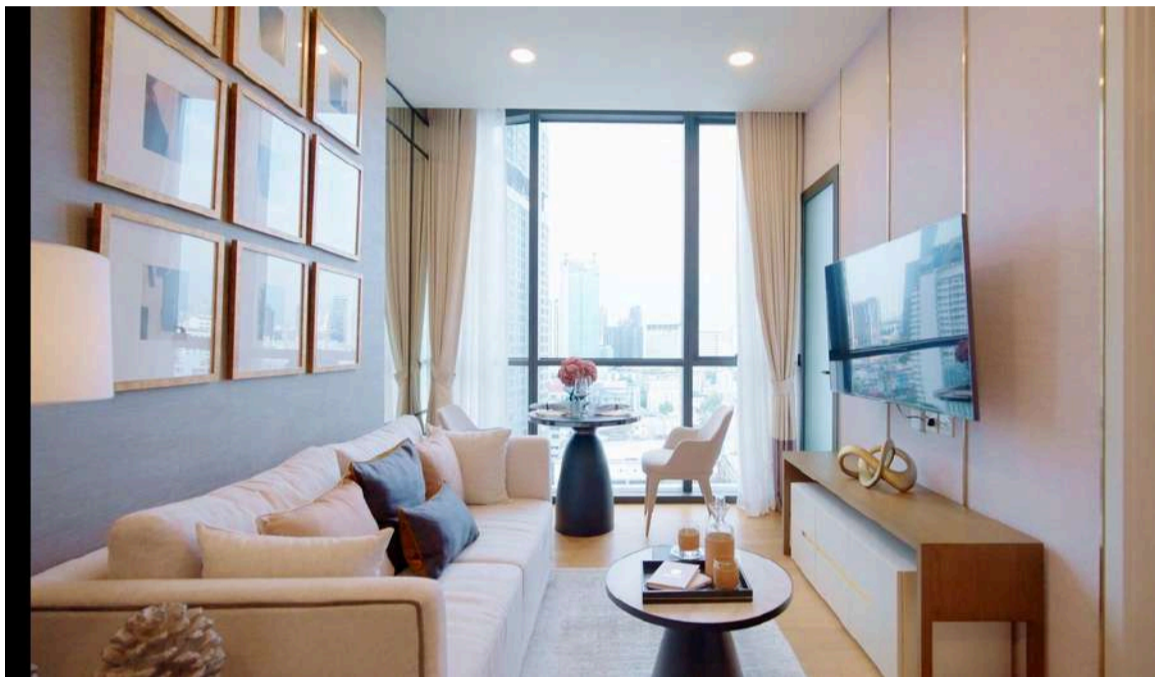

1 BEDROOM 1 BATHROOM

UNIT FEATURES

The "PLEATED" facade creates cantilevered triangular corners that give the occupants alternative angles to view the city from their room.
